

TANF SERVICES FUNDED IN WISCONSIN

THE PARTNERSHIP FOR FULL EMPLOYMENT (PFE) (SUPPORT OF ONE-STOP JOB CENTERS)

Program Description:

All W-2 agencies are either colocated or electronically linked to Job Centers in each W-2 geographic area. Local Job Centers offer Job Fairs for employers and job seekers in their areas. Each Job Center in Wisconsin provides many valuable services to Job Seekers and Employers. Some of these services are the same in every Job Center and some services are specific to the local community.

Wisconsin uses TANF funding to support the Partnership for Full Employment, which provides base support to the Job Center system. This support ensures that W-2 applicants and participants are treated like any other job seeker and supports the "one stop" philosophy in Wisconsin.

Client Group Served:

Job Centers are open to all job seekers, including W-2 participants. Job Centers provide one-stop shopping for employers to meet workforce needs and for job seekers to obtain career planning, job placement and advancement, and training at the local level.

Critical Indicators:

There is at least one Job Center in every Wisconsin County. Every Job Center has, at a minimum, employer and job seeker services that include the capacity for job seekers to look for employment on-line.

TOTAL TANF FUNDING: \$3,500,000
